SHIELD**

Callero Shield Carts

For over 40 years Gratnells has provided medical carts to Hospitals, Clinics and Surgeries with each featuring an antimicrobial finish to reduce contamination and assist infection control. This technology is now being brought across to our classroom range of storage in the form of Callero Shield. All the features of our regular Callero with the added protection of antimicrobial finish for safer classroom environments.

Features and benefits

- Our popular worldwide classroom and science storage system is now available with BioCote antimicrobial protection
- All steel surfaces and trays are available with BioCote antimicrobial protection
- Runners can be reconfigured easily for a range of tray heights, suitable for classroom resource management with ease
- Lightweight and compact construction allows for maximum flexibility and positioning
- Ergonomic handles and large robust castors allow carts to be moved with ease as needs change
- A range of models and configurations available.
