

# Gratnells

## MakerHub

The Gratnells MakerHub is designed to be a multi-functional resource cart that promotes collaborative working in STEAM activities in the classroom. A variety of Gratnells trays can be used in the MakerHub thanks to the flexible runner system in the base storage unit. Runners can also be fitted to allow for trays to be used on both sides of the cart.

### Features and benefits

- Ideal for when the teacher needs to work individually with students when socially distanced
- Large, robust castors allow the unit to be wheeled to the place of need inside/outside and across uneven ground
- Comes complete with whiteboards but can easily be swapped out for any 600x900mm pin board/chalkboard
- Trays and steel construction now available with BioCote antimicrobial protection.
