

Gratnells

MakerSpace Cart

The Gratnells MakerSpace cart has been designed to work with the rest of the Gratnells Callero Plus range and can be configured with a variety of tray and storage bin options.

The MakerSpace cart can be used to transport materials and equipment to a work area, and the cart can also be used as a standalone workstation, with ample storage for many materials. Using a selection of tray inserts from the Gratnells range, the MakerSpace cart can accommodate materials and parts of varying sizes and shapes, while still making them easily accessible for selection and sharing.

Features and benefits

- With a heightened sensitivity to infection control, some STEM and Maker activities have become more restricted.
- The antimicrobial MakerSpace provides a hub for STEM and Maker activity, with a protected finish, to reduce infection risk
- MakerSpace allows resources to be moved, seen, and easily selected, or stored away
- MakerSpace creates a flexible focal point for a variety of STEM and craft activities
- Ease of mobility allows the creation of project zones across a range of tasks and topics
- The top surface can be used for storing hygiene products such as sanitiser, wipes, gloves and masks.
