MakerSpace - Math

The versatile Callero line of Gratnells carts has been specifically designed to promote STEM and STEAM education, and is the perfect solution for collaborative learning.

There are no sharp edges or corners, plus the ergonomic handles along with durable 3" casters make maneuvering the carts a breeze. All carts are compatible with Gratnells standard F type trays.

The Callero carts feature an enclosed metal frame, which reduces the need for cleaning, as well as offering enhanced security. StopSafe runners mean that the units are extremely secure and completely child friendly. The runners can be moved to accommodate both shallow and deep trays in one unit.

Math storage

- Easily sort math manipulatives into different trays
- Allows all resources to be stored together in one central place
- A range of tray sizes available to suit different resources - shallow (F1), deep (F2), extra deep (F25) and jumbo (F3)
- Antimicrobial protection available on frame and trays (translucent and kiwi only)
- Gratnells tray inserts can be added to all tray sizes to add additional organization to manipulatives.
- Gratnells SortED inserts can be used within the trays to aid math learning.
- Cart top can be used as a work space for small groups or teams.
