WHY GRATNELLS?

Schools are different all over the world, but our patented products are in over 70 countries for a reason.

Gratnells is the global leader in tray storage, with market knowledge spanning over 100 years. Our complete line of high-quality trays and associated furniture related accessories are designed specifically for education and allow for seamless furniture integration.

Our range of products is extensive, giving flexible options to personalize learning spaces according to user needs.

But Gratnells is not just a manufacturer. We are unique in working collaboratively with teachers, school leaders, designers and academics to optimize learning spaces. We design for today's teaching – putting the curriculum, safety and sustainability front and center of all that we do.

We don't stop there. We also look to the future. Through the Cambridge Centre for Learning Spaces Innovation, we are supporting research to uncover how spatial design will change to meet the needs of the next generation of learners. Our Planning Learning Spaces in Practice Design Framework gives schools the chance to trial innovative products and translate their objectives into spaces for learning.

At the heart of everything we do is the desire to proactively improve the learning environment and outcomes of every child that encounters a Gratnells product.

READ ON for more details on a selection of our best-selling products.

THE GRATNELLS SCHOOL TRAY IS THE BEST-SELLING EDUCATIONAL TRAY IN THE WORLD.

TRAYS

AT THE HEART OF A GREAT SCHOOL ECOSYSTEM IS A GRATNELLS TRAY.

The iconic, Worlddidac award-winning Grannells school tray is found in learning environments all over the world. Made from fully recyclable polypropylene, it is molded to a size for seamless fusion with standardized school furniture.

Equipment can be sorted and transported around the learning space in our lightweight tray with ease, preventing lost learning time. It is designed to help provide a flexible, high-density storage solution on a small footprint, allowing more space to be kept available for

learning activities. Now, in the modern-day classroom, students can select pre-prepared resources from trays, taking responsibility for their learning. The tray comes in a range of colors for visually stimulating, color-coded storage and is easily accessible to learners due to its trademarked shape. Whether it is chemicals, worksheets, stationery, or robotics kits that need housing, a Grannells tray is the solution.

ACCESSORIES

PREVENT LOST LEARNING TIME AND PROMOTE STUDENT INDEPENDENCE WITH OUR RANGE OF ORGANIZATIONAL ACCESSORIES.

Our range of accessories is designed specifically for Gratnells trays, optimizing the storage space whilst supporting a calm, organized classroom. Resources can be prepared and stored ahead of time, allowing for more focus on welcoming and settling students into the lesson. Learners can take responsibility for collecting or tidying away equipment safely and securely, giving them independence and freeing up valuable teacher time.

SortED INSERTS

Our SortED modular inserts are designed to fit a Shallow or Deep Tray. They can store a variety of equipment such as chemicals or craft materials, allowing for the set-up of activities prior to the lesson and reducing take-down time at the end. They can be easily picked up by children and come in a range of colors. The bright, eye-catching color options have added BioCote® antimicrobial treatment for extra hygiene, helping to prevent the spread of germs around classes.

Molded Insert

LIDS

Clip-on lids provide extra security for items stored in the trays such as glassware or electronics. The translucent lid allows students and teachers to quickly view the contents of the tray, making it easy to find resources.

STOPSAFE RUNNERS & CLIPS

StopSafe runners prevent trays from being pulled out past a certain point. This makes it safer and easier for students to access resources without adult support.

ROVER

Hands-on outdoor learning is critical for engagement and motivation. It also boosts student well-being.

Relocating lessons to any learning space is simple with the Rover's ability to move resources easily and safely. Tough and practical, the Rover has been designed to carry Gratnells trays over any terrain and assist when moving heavy loads around and between learning spaces.

Whether sports equipment and bottled water are needed on the sports field or e-learning resources needed at an extracurricular club, the Rover is ideal for providing learners and teachers with everything they need, wherever they need it.

MAKERSPACE CART

The ultimate makerspace resource – ideal for collaborative STEM-based project work. It provides everything that students need to collaborate, invent, design and build.

The easy-to-maneuver MakerSpace Cart gives teachers the ultimate flexibility, allowing learners to collaborate and create using materials stored in the combination of trays, inserts, hooks and mini-bins. The metal top and back panel give learners additional planning space and work surface where they can test their ideas,

encouraging independence and supporting student-led learning. The tilted deep trays give the unique flexibility for learners to view the contents whilst working.

StopSafe runners ensure that the shallow trays are stored securely and can only be pulled out up to a certain point, allowing safe access to resources for children.

MAKERHUB

Move resources to a new space and give students the chance to practice their presenting skills.

A maneuverable collaboration hub that promotes group work and facilitates presentation by students, the MakerHub can also be a flexible teacher hub that can be moved anywhere in the classroom. Boost subject-based learning by storing custom resources in the trays

under the easy-lift magnetic whiteboards. The lightweight, maneuverable MakerHub allows students to relocate within the learning space for quiet time away from others, which is particularly important for those with additional learning needs.

OUR CALLERO CUSTOM MODULAR UNITS MATCH THE STORAGE LAYOUT TO CLASSROOM NEEDS.

**Whatever the storage problem is,
Callero Custom is the perfect solution.**

Whether the space available is a corner or an entire wall, Callero Custom can create the ideal solution. Build up or across to make the space work. Mix and match tray units with shelving to provide a classroom learning area that contains everything students need for their lesson.

CALLERO CUSTOM

Our low units are designed to offer high-density storage on a smaller footprint whilst also providing an extra workstation for students to use.

Students enjoy carrying out hands-on tasks, whether this be STEM or another creative, practical activity. Low units provide a workstation with dedicated space for learners to work while having plenty of resources available close by. The units with trays and shelves allow for the set-up of a cozy library where children can choose their own books and develop a love of reading. Low level frames can be added over time, adapting to changing needs.

CALLERO CUSTOM

Callero Custom Tall provides a learning area that contains every possible resource students require for their lesson.

Children are encouraged to take responsibility for resources and their belongings. The tall, high-density units allow for the storage and organization of materials, enabling students to independently access them when needed. Trays at different heights give the option to store teacher-directed resources, such as models, higher up and easy access for students to collect worksheets and books lower down, increasing safety.
